Board Certified Behavior Analyst (B.C.B.A.)

At Children's Academy CT, our B.C.B.A. is an integral part of each child's team! The B.C.B.A. will put together a program specifically tailored to your child's skills and needs. They will supervise each Early Interventionist that works with your child, providing support and alternate teaching strategies in order to help your child reach their full potential. The B.C.B.A. will come out to observe your Early Intervention Specialists and Early Intervention Associates at a minimum of two times per month and will be available to attend the monthly parent-team meeting upon request.

Children's Academy CT looks to hire candidates, who are knowledgeable in understanding, applying, analyzing, evaluating, and creating early intervention programs and lessons specifically designed to benefit children who have Autism Spectrum Disorder. We are looking for charismatic, enthusiastic, and dedicated individuals who will work together with a team of professionals in order to help our children reach their potential! In order to be considered for Children's Academy CT B.C.B.A. position, we ask that candidates meet the following standards:

- a) Must hold a Master's degree in Applied Behavioral Sciences, Psychology, Early Childhood Education or other related field
- b) Must have completed Board Certified Behavior Analyst (B.C.B.A.) coursework and passed the B.C.B.A. certification exam, as well as 1500 hours of Early Intervention fieldwork supervised by a currently certified B.C.B.A
- c) Must have 1-3 years of experience working with child with Autism
