Welcome

Welcome to Children's Academy CT, an insurance based, in-home, Autism-specific program! We work with children ages birth to nine in a home setting providing Applied Behavior Analysis (ABA) services. We also provide Shadow Aides to children ages five to nine in a school setting adhering to individual educational and behavioral plans.

We are a paperless company, utilizing the most innovative technology available in our field to provide you and your child the best opportunity for success!

We look forward to helping you navigate the spectrum and empower you with knowledge and resources needed to reach the endless possibilities beyond Autism!

Applied Behavior Analysis Therapy

What is ABA Therapy?

Applied Behavior Analysis (ABA) is currently the most evidenced-based treatment available to children with Autism. The goal of ABA therapy is to take challenging behaviors that impact a child's ability to learn and replace them with more meaningful and positive behaviors.

Children's Academy CT will provide 1:1 therapy sessions for your child in the comfort of your own home! If you would like to work on behaviors that occur in the community, therapists can hold sessions at preschool, the grocery store, the mall, or anywhere challenging behaviors may occur.

Insurance Accepted Program

Insurance

There are tons of questions that you may have when your child is diagnosed with Autism like; "Where do I go from here?", "What type of services do I need?", and "What does Autism mean for my child and family?"

We can help you find the answers to those questions by eliminating two important ones; how much services cost and affordability of services. Children's Academy CT is an insurance based company that provides your child with an opportunity to receive as many hours of service as recommended.

Program Overview

Step One: Insurance Approval

Step Two: Observation and Assessment of Skills

Step Three: Program Developed with BCBA

Step Four: Case Manger will Make a Schedule for Session

Step Five: Services will Begin

After Start of Services

- All therapists will meet with the BCBA weekly to discuss progress of your child's program.
- Each child will have at least one monthly team meeting including, parents and all team members to discuss and revise program.

Paperless Program

Datafinch (Application Catalyst)

Children's Academy CT utilizes innovative technology in the field. We pride ourselves on our eco-friendly attitude, and are able to eliminate the use of paper program books through a program called Datafinch.

iPad, iPhone & iPod Touch

Datafinch is available through the iPad and iPhone, and has capabilities that allow therapists to track your child's progress and behaviors. It also provides opportunity for video and note documentation.

Parent Training

Advanced Training Solutions Videos

As part of Children's Academy CT's services, we offer parents the opportunity to gain education and support through the use of Autism Training Solutions (ATS).

ATS is an online program that is compiled of educational videos that you can watch at a time that is convenient for you! You will be educated about topics that are parallel to the lessons within your child's program!

facebook

Facebook Support Group

www.facebook.com/groups/birthtofivesupportgroup

Our Facebook support group (Birth to Nine Support Group) provides Autism friendly opportunities in your community, from sensory sensitive movies to iPhone applications. This group delivers useful and helpful information to many families on a regular basis.

Video Chat Support

We understand that it isn't always convenient to do face to face meetings. That is why we offer opportunities to use video chat programs such as Skype and Google Hangout to talk with professionals from the convenience of your home!

Family Support

Beyond Autism Blog

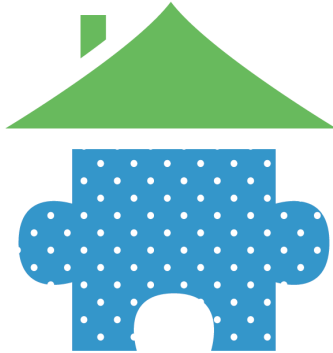

<http://beyondautismblog.wordpress.com/>

If you are looking for support and want to learn from real-life situations, then Children's Academy CT's, "Beyond Autism Blog," is for you! Children's Academy CT shares professional perspectives on situations that may occur while working in the field of early intervention.

Shadow Aides (Ages 5 to 9)

Children's Academy CT also offers Shadow Aides. Shadow Aides accompany a child to a school setting. The ultimate goal of the Shadow Aide's are to support a child to become successful and independent in the least restrictive school and community settings. Shadow aides allow the child to function in a mainstream school setting more successfully by supporting the academic/behavioral goals designed by the individualized educational plan team.
